Specification Restrictive measures in relation to serious human rights violations in Iran

Acronym HR

Adopted by EU

Program IRN

Expiry date 13.04.2024

Last amendment date 15.09.2023

**Notes** The restrictive measures in relation to serious human rights violations in Iran were first put in place on 12 April 2011. Travel restrictions and an asset freeze were introduced with respect to persons complicit in or responsible for directing or implementing grave human rights violations in the repression of peaceful demonstrators, journalists, human rights defenders, students or other persons who speak up in defense of their legitimate rights. The measures can also be imposed against those who are complicit in or responsible for directing or implementing grave violations of the right to due process, torture, cruel, inhuman and degrading treatment, or the indiscriminate, excessive and increasing application of the death penalty, including public executions, stoning, hangings or executions of juvenile offenders in contravention of Iran's international human rights obligations.

On 23 March 2012, in view of the gravity of the human rights situation in Iran, additional restrictive measures were introduced, namely an embargo on equipment which may be used for internal repression and on equipment that may be used to monitor or intercept the Internet and telephone communications on mobile or fixed networks.

## Measures

### Asset freeze and prohibition to make funds available

All assets of the listed persons and entities should be frozen. It is also prohibited to make any funds or assets directly or indirectly available to them.

#### List of persons and/or entities subject to asset freeze and prohibition to make funds available

### Restrictions on equipment used for internal repression

It is prohibited to export equipment which might be used for internal repression to Iran. Related technical or financial assistance and services are also prohibited.

#### Equipment which might be used for internal repression

### Telecommunications equipment

It is prohibited to export equipment or software listed in Annex IV of Council Regulation (EU) No 359/2011 intended for use in the monitoring or interception by the Iranian regime of the Internet and of telephone communications in Iran. Related assistance to install, operate or update such equipment or software is also prohibited.

Specification Restrictive measures in relation to the non-proliferation of weapons of mass destruction

Acronym WMD

Adopted by UN and EU

Program IRN

Last amendment date 09.10.2023

Notes On Implementation Day (16 January 2016), the EU lifted all its economic and financial restrictive measures imposed in connection with the Iranian nuclear program. As a consequence, the following activities, including associated services, are again allowed as of Implementation Day: financial, banking and insurance measures; trade in the oil, gas and petrochemical sectors; activity in the shipping, shipbuilding and transport sectors. Moreover, a number of persons, entities and bodies were delisted and are therefore no longer subject to asset freezes, prohibitions to make funds available and visa bans. Details can be found in the JCPOA Information Note (Section 3). The JCPOA Information Note is available here: [https://eeas.europa.eu/delegations/iran/32286/nuclear-agreement\\_en#JCPOA+Information+Note](https://eeas.europa.eu/delegations/iran/32286/nuclear-agreement_en#JCPOA+Information+Note).

However, a number of proliferation-related measures and restrictions remain in place even after Implementation Day. These concern inter alia the arms embargo, restrictive measures related to missile technology, restrictions on certain nuclear-related transfers and activities, and provisions concerning certain metals and software which are subject to an authorisation regime.

In addition, one should bear in mind that restrictive measures imposed by the EU in view of the human rights situation in Iran, support for terrorism and other grounds (e.g. the war in Syria) are not part of the JCPOA and remain in place.

## Measures

### Arms export

A prohibition to sell, supply, or transfer, directly or indirectly, or procure arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for such arms and related materiel; and the provision of associated services continues to apply after Implementation Day. The EU arms embargo covers all goods included in the EU common military list. The EU arms embargo stays in place until Transition Day

## Asset freeze and prohibition to make funds available

All assets of the persons and entities listed in Annexes VIII and IX of Council Regulation (EU) 267/2012 should be frozen. It is also prohibited to make any funds or assets directly or indirectly available to them. It is also prohibited to supply specialized financial messaging services, which are used to exchange financial data, to the listed persons and entities. The list of persons and entities concerned is included in the Financial Sanctions Database (linked).

# Iran

Specification Restrictive measures in view of Iran's military support of Russia's war of aggression against Ukraine

Adopted by EU

Program IRN

Expiry date 27.07.2024

Last amendment date 11.12.2023

Notes In several of its Conclusions in 2022 and 2023, the EU has strongly condemned any type of military support by Iran, including deliveries of Unmanned Aerial Vehicles (UAVs) to Russia's illegal, unprovoked and unjustified war of aggression against Ukraine.

In view of Iran's continued military support to Russia's war of aggression, on 20 July 2023, the Council established a new framework of targeted sanctions banning the export of components used in the manufacturing of UAVs. The measures also consist of a travel ban to the EU and an asset freeze for persons and entities responsible for, or involved in, Iran's UAV programme. Additionally, EU persons and entities are forbidden from making funds available to those listed.

Derogations to the restrictive measures are possible, including the delivery of humanitarian aid.

# Measures

## Asset freeze and prohibition to make funds available

All assets of the listed persons and entities should be frozen. It is also prohibited to make any funds or assets directly or indirectly available to them.
